3220 River Drive, Terrace, BC V8G 3P4

On behalf of Council, it is my pleasure to introduce to you the 2018 Northwest BC Industrial Resources Services Directory. Terrace is a vibrant hub of activity as British Columbia's service and supply center for the Northwest. As you will see in the pages of this directory, our city offers a wide variety of services, supplies and contractors to meet the needs of small businesses and major projects alike.

Terrace is strategically located at the intersection of Highway 16W, 113 and 37S, and the Northwest Regional airport is only a quick 10 minute drive from downtown. We are excited about the opportunities on our doorstep which bring potential growth and sustainable development in a variety of sectors including mining, tourism, value added forestry, LNG and manufacturing.

I invite you to invest in the future of Terrace by supporting local businesses and growing your own business here. Please contact the City of Terrace's Economic Development team at 250-615-4030 with any questions and to learn more about our fantastic community.

Sincerely,

Carol Leclerc
Mayor
City of Terrace

CITY OF TERRACE
Your home base in northwest BC

As Mayor of Kitimat and on behalf of our community, I want to say -LNG is here, now let's get building!

Kitimat is thrilled with LNG Canada's Joint Venture Partner's recent investment decision signalling the start of construction of Canada's first LNG export facility. This is a commitment that represents the single largest private investment in Canada's history. While this may sound like a once in a lifetime opportunity, it is not for our community. Kitimat was founded when the Aluminum Company of Canada committed to building our province's first and only aluminum smelter on the traditional territory of the Haisla Nation. This project represented the single largest private investment in Canada's history at that time. So, history does repeat itself.

During the development of Kitimat's aluminum smelter, and through the construction of several more recent projects, such as the \$5 Billion Kitimat Modernization Project, Kitimat and the Northwest region have continued to demonstrate that we have the skills, aptitude, determination, and perseverance to get projects built. A large part of the success of these projects can be attributed to our local suppliers and service providers. These businesses and their workers have proven their capacity to deliver on projects of all sizes, including industrial, commercial, and residential projects. I encourage you to take advantage of the services offered by the companies featured in this guide. If you require information or have any questions about business opportunities in our community, please contact the District of Kitimat Economic Development Department at 250-632-8921 or email edo@kitimat.ca.

Best Regards,

Phil Germuth
Mayor,
District of Kitimat

As Mayor of the District of Stewart and on behalf of Council, I am pleased to introduce and promote our beautiful community!

With Stewart being an incredible destination for fishing, wildlife viewing, hiking and breathtaking scenery, there are also a variety of reasons to consider conducting business in our community:

- Mining as well as mining exploration has a continuous one hundred year history in this region, and shows no sign of slowing down;
- Located strategically at the head of the Portland Canal, Stewart is Canada's most northerly ice-free port facilitating year-round shipping through 2 private port operations;
- Log export continues to thrive as a stable market;
- Also, with Stewart's increasingly growing tourist population, the tourism niche is providing new prospects for tourism operators.

The District of Stewart has a wide range of commercial, service and industrial businesses located in key areas. Stewart is their choice for reasons such as the proximity to transportation corridors, availability of skilled workforce, services and amenities, competitive lease rates, and of course our picturesque setting.

Whether you are considering doing business in Stewart, or continuing to do so, we are pleased to offer solutions and opportunities that are unique to our community.

Sincerely,

Gina McKay
Mayor
District of Stewart

The advertisement for Spirit Bear Express features a large, stylized logo with the words "SPIRIT BEAR EXPRESS" in a metallic, jagged font. A silhouette of a bear is integrated into the letter "E". Below the main title is a white rectangular box containing the text "COURIER & HOTSHOT SERVICES". Underneath this is another white box with the slogan "TRUST THE BEAR TO GET IT THERE!!". At the bottom, there is contact information: "WWW.SPIRITBEAREXPRESS.COM ~ spiritbearexpress@gmail.com". The background of the ad shows a sunset over a mountain range. At the bottom, there are three smaller images of delivery vehicles: a blue car, a white pickup truck with a trailer, and a white van. The final text at the bottom reads "CALL/TXT 250-641-2365" and "Serving Northwest BC & Beyond".

Onsite Emergency Response

Cross-trained Paramedic Rescue Technicians

Integrated Emergency and Safety Services employs experienced, certified professional fire, rescue and medical personnel. Integrated will work with you to create a tailored team that supports your corporate safety policies and protects your employees, your most valuable asset.

Integrated provides you with only highly skilled and experienced personnel including:

Licensed Primary and Advanced care paramedics
National Fire Protection Association Certified Fire Fighters
with Certification in Specialized Technical Rescue (high angle rope, water, confined space, ICS, fall protection)

Integrated provides experienced cost effective cross trained Rescue personnel. Our integrated model utilizes Worksafe required paramedics specializing in technical rescue combining two services in one product. Our Crews of professional fire fighter/paramedics have years of experience, exceeding industry expectations. Clients will recognize the difference experience makes.

Services we provide:

- consulting in firefighting
- confined space assessments
- rescue plans
- technical rescue
- fire protection plans
- training

Proudly owned and operated in The Pacific Northwest

Integrated and emergency services is locally owned and operated. Our staff live and work in the pacific northwest. We have done emergency services consulting work with a variety of different companies ranging from fire bylaw development to fall protection rescue training.

We would appreciate the opportunity to discuss how we can tailor our services to meet your specific needs.

Low carbon footprint aluminium now made in BC

With state-of-the-art technology, Kitimat produces aluminium with one of the lowest carbon footprints in the world.

Our success would not be possible without the support of the local community, and as we plan for the future, we look forward to building positive relationships and partnerships with local residents and businesses.

6) DO YOU WISH TO ADVERTISE A DISPLAY AD: _____

DEADLINE for inclusion as a listing in the Directory is November 15, 2019

HATCH

We embrace your vision as our own.

Your challenges are transforming the way you do business.

We understand that your needs are changing rapidly and that you need a partner who is proactive in identifying the larger, long-term issues affecting your business. A partner who listens carefully and is agile and innovative in their approach. A partner that understands the local market and is committed to our clients' success. A partner who sees the potential of emerging technologies and can deliver value in ways that are most meaningful and relevant for today.
